

MIGALOO
HOME

P R E F A C E

Excitement is building along the world as most well-known humpback albino whale named Migaloo begins to make it's migration north from Antarctica. The creatures that inhabit the oceans that he swims through, have the full spectrum of colors- often in intricate patterns and advanced camouflage. This unusual whale called " White Fella" is the only one living animal that you can see from a plane on the vast blue background .
